

**Subject:** bogus fafsa site

A bogus FAFSA site is charging an \$80 fee for processing this essential federal (college) financial aid application.

**The bogus site is [fafsa.com](http://fafsa.com), which is a scam.**

**The real site is [fafsa.ed.gov](http://fafsa.ed.gov).**

The Department of Education can't do anything about this site, so it is important to warn applicants to be careful which site they use. They have had many students do this. Not only are the students(parents)needlessly spending \$80, but they have given away their confidential financial and identity information!

Moderator's Note: I have seen the fafsa.com site and it may well file the fafsa for you for the fee stated, but why pay when you can file it free?
